To Whom-It May Concern:

Subject: Testimonial for Optimal Civil Engineering Solution Plc - Sub-Consultancy Services for Construction of Adigrat Messebo Junction to Felegdaero Settlement Gravel Road Project (20km)

This letter serves as a testimonial to the valuable sub-consultancy services provided by Optimal Civil Engineering Solution Plc for the Adigrat Messebo Junction to Felegdaero Settlement Gravel Road Project, a 20-kilometer road construction project undertaken by Hawen Construction.

Optimal Civil Engineering Solution Plc was engaged as a sub-consultant from January 2023 to February 2024 to assist Hawen Construction in the successful execution of the project. Their services included:

- Detail Design of the Road:** Optimal Civil Engineering Solution Plc played a crucial role in the detailed design phase, including the preparation of surveying data collection, thorough soil and material investigation and testing, and the development of detailed working drawings and comprehensive design reports. Their expertise and attention to detail significantly contributed to the accuracy and efficiency of the road design.
- Contract Administration of the Road Construction Services:** As a sub-consultant, Optimal Civil Engineering Solution Plc provided exceptional support in contract administration, including project management, payment preparation, claim processing, and liaison with both the client and the consultant. Their assistance was instrumental in ensuring smooth project operations and effective communication.

Throughout the project, Optimal Civil Engineering Solution Plc consistently demonstrated a high level of professionalism, technical expertise, and dedication. Their team was responsive, collaborative, and proactively

addressed any challenges that arose. Their contributions were invaluable to Hawen Construction in the successful completion of the Adigrat Messebo Junction to Felegdaero Settlement Gravel Road Project.

We are extremely satisfied with the sub-consultancy services provided by Optimal Civil Engineering Solution Plc and highly recommend them for any civil engineering projects, particularly road design and contract administration. Their expertise and dedication were a significant asset to our team.

We would not hesitate to engage their sub-consultancy services again in the future.
